

Presidents Message:

Why Are We Are Moving?

Our monthly meeting location will change starting with our September 28th, 2009 meeting. Some are wondering why we are moving, so here are a few reasons.

The Leonardtown Library meeting room will be the location most months, and our primary reason is to allow us access to the internet! With so many advances in genealogy research in the last few years, having on-line access has become an important advance. The council made the decision last year to start the search for a location with Web Access. After looking at several alternatives, the library was selected.

This decision will give some of our speakers the ability to do “real time” topics and good example of “How-to’s”. Members will be able to follow along if they have their own laptops and /or using the laptops available from the library. We will also be able to utilize the library’s free Ancestry and Heritage Quest subscriptions as well as our own library holdings and as an organization with ties to the library we are showing our continued support for the library and its facility.

Some may be wondering if we will still have our “refreshments” and the answer is yes, and for those who have struggled with the noisy coke machine at our previous location, No More Noise or Interruptions! And lastly.. It’s free!

See you at the Library!

Linda Vert
